Choosing the Right Health Insurance Plan

You don't need a group to have a planSM

Starting Out

If you're young and healthy, you're probably not going to require frequent medical care. You might be tempted to go without health insurance, but that means taking the chance you'll be held responsible for large medical bills if you do become sick or injured. To avoid incurring that sort of debt, the wise move is to purchase health insurance that provides basic everyday benefits and affordable protection from large medical bills.

If you're looking for basic coverage of illnesses and injuries, Assurant Health's **RightStart**[®] plan will provide the protection you need at a price you can afford.

For broad but cost-effective protection from the financial consequences of serious illnesses and accidents, choose **CoreMed**SM.

Building a Life Together

Marriage brings increased expenses. The costs associated with setting up a household might seem more important than the purchase of health insurance. However, a health insurance plan covering both you and your spouse should be one of your top budget priorities. If you get sick or injured while you're uninsured, you'll not only have your health to worry about, but you'll also have to figure out how to pay for the care you receive. By purchasing quality health insurance coverage like the CoreMed or SaveRight HSA plan from Assurant Health, you can seek the care you need without being liable for the high bills.

CoreMed offers you extensive general coverage and lifetime benefits of up to \$6 million per person. **SaveRight HSA**[®] combines basic coverage with the tax advantages and savings potential of a Health Savings Account (HSA).

Keeping yourself healthy is important too — your children are depending on you to provide for them.

CoreMed offers extensive coverage and plenty of choice so you can customize your plan. Add the office visit copay option and your copay will be your only cost toward four visits per person each year.

Office Visit Copay

With an office visit copay, you have the convenience of knowing what you'll spend when you visit a network doctor. Your copay is your only cost for an eligible network office visit, including immunizations and allergy shots.

The office visit copay is not available with OneDeductible or SaveRight HSA plans.

Maternity Benefit

This benefit pays 100% of covered routine maternity services after you meet your maternity deductible — for any pregnancy that begins after a 90-day benefit waiting period.

Covered complications of pregnancy remain subject to the plan deductible and coinsurance.

Dental Insurance

Choose from two fee-for-service plans that pay cash benefits to help offset the cost of routine, basic and major dental services.

Options are available at an additional cost.
